SUPPLEMENTAL INSPECTION REMARKS

Permit No.: 17 157 H

The following remarks supplement the inspection report of: Goodfield Elementary School cafeteria

(Establishment Name)

Date: 7 February 2017

Item	Code	Section	Inspection Remarks	Correct by
			No violations observed at time of inspection.	
			Keep up the good work!	
			Please go to our website to view/print the Fall/Winter 2016 newsletter.	
			Facility is still classified as a Category I, High Risk establishment. Food is prepared at Eureka Middle School, Eureka, then transported in insulated containers & served out of kitchen at Goodfield Elementary School.	
			Please note that if the school or group fundraiser is cooking/preparing/serving food outside of kitchen facility (concessions, grill, barbeque, steak-fry, cook-out, etc.), a temporary food permit must be applied for & approved by WCHD.	
			WCHD provides free food safety in-services to establishments & their staff	
			Next IL FSSM 8-hour class offered @ WCHD: February 28 & March 2, 2017	
			IL FSSM class at U of I Extension, Woodford – Eureka: Call 309-467-3789 for class information or to register for 8-hour class and exam.	
			Effective January 1, 2017, Food Handler certification is required for all food employees who do not already have IL FSSM certification. "Food employee" means an individual working with unpackaged food, food equipment or utensils, or food-contact surfaces. Food handler certification is required 30 days from the hire date of food employees.	
		FYI	HAZARD ANALYSIS CRITICAL CONTROL POINT	
			- Keep potentially hazardous food requiring time/temperature controls for safety out of the temperature danger zone of 41° F – 135° F [use a clean and sanitized food temperature measuring device with metal-stem to monitor internal food temperatures]	
			- Wash hands frequently at hand sink, especially before using gloves – double hand washing after using the restroom	
			- Ensure self-closing hand sink faucets provide a flow of water for at least 15 seconds without re-activation	
			- Chlorine: 50-100 ppm at 3 rd compartment of sink, immersion for 1 minute 100-200 ppm for swabbing, moist-wipe cloth, spray bottle	
			- Recommend documenting of temperatures of refrigeration units, freezing units, hot-holding units, internal food temperatures, sanitizer concentrations, etc. on a log sheet	
			- Make sure all containers of food are properly labeled w/ <u>name</u> and <u>date & time</u> of opening of package, in addition to the <u>date & time</u> when the food was placed into the container; discard PHF under refrigeration after a maximum of 7 days	
			- Make sure all containers of food are protected from consumer contamination by appropriate means (sneeze guard, plastic wrap, foil, etc.)	

Sanitarian/Environmental Health Inspector Paul Wilkins WCHD

These remarks have been explained to me and are understood
