SUPPLEMENTAL INSPECTION REMARKS

Permit No.: 17 170 H

The following remarks supplement the inspection report of: Eureka College Dickinson Commons
(Establishment Name)

Date: 29 August 2017

Item	Code	Section	Inspection Remarks	Correct by
		FYI	HAZARD ANALYSIS CRITICAL CONTROL POINT	
			- Keep potentially hazardous food requiring time/temperature controls for safety out of the temperature danger zone of 41° F – 135° F; reheat PHF to 165° F [use a clean and sanitized food temperature measuring device with metal-stem to monitor internal food temperatures]	
			- Wash hands frequently at hand sink, especially before using gloves and after donning hair restraints/caps – double hand washing required after using the restroom	
			- Pre-chill containers in WIC, RIC, WIF, or RIF to help keep potentially hazardous food 41° F or below; pre-chill ingredients to minimize the amount of time potentially hazardous food is in the temperature danger zone (4 hours maximum)	
			- Make sure all containers of food are properly labeled w/ <u>name</u> and <u>date & time</u> of opening of package, in addition to the <u>date & time</u> when the food was placed into the container; discard PHF under refrigeration after a maximum of 7 days	
			- Recommend continued documenting of temperatures of refrigeration units, freezing units, hot-holding units, internal food temperatures, sanitizer concentrations, dishwasher temperatures, etc., on a log sheet	
			- Protect food from possible consumer contamination by using sneeze guards and other effective means (clear plastic wrap, aluminum foil, waxed paper, etc.)	
			- Ensure food employees that are ill do not work in food service areas and are restricted to some area of the establishment where there would be no danger of transmitting disease
