Item	Code	Section	Inspection Remarks	Correct by
		FYI	HAZARD ANALYSIS CRITICAL CONTROL POINT	
			- Keep potentially hazardous food requiring time/temperature controls for safety out of the temperature danger zone of 41° F – 135° F [use a clean and sanitized metal-stem thermometer to monitor internal food temperatures]	
			- Wash hands frequently at hand sink, especially before using gloves – double hand washing required after using the restroom	
			- Recommend documenting temperatures of refrigeration units, freezing units, hot-holding units, internal food temperatures, sanitizer concentrations, etc., on a log sheet	
			- Make sure all containers of food are properly labeled w/ <u>name</u> and <u>date & time</u> of opening of package, in addition to the <u>date & time</u> when the food was placed into the container; discard PHF under refrigeration after a maximum of 7 days	
			- Store employee items (cell phones, water bottles, drinks, food) on designated shelves to prevent contamination of equipment & food intended for consumption	
			- Label all food pre-packaged in advance of retail sale with: 1) The common and/or usual name of the product; 2) The name, address and zip code of the manufacturer, processor, packer, preparer or distributor; 3) The net contents of the package; 4) A list of ingredients in the order of their predominance by weight with ingredients shown by their common or usual name; and 5) A list of any artificial color, artificial flavor or preservative used.
