			- Wash hands frequently at hand sink, especially before using gloves – double hand washing required after using the restroom	
			- Store employee items (water bottles, drinks, food) on designated shelves to prevent contamination of food intended for student consumption and equipment.	
			- Recommend documenting temperatures for all refrigeration units, freezing units, and hot-holding units, internal food temperatures, sanitizer concentrations, etc., on a log sheet	
			- Make sure all containers of food are properly labeled w/ <u>name</u> and <u>date & time</u> of opening of package, in addition to the <u>date & time</u> when the food was placed into the container; discard PHF under refrigeration after a maximum of 7 days	
			- Make sure all windows and exhaust fans have screens (16 mesh to the inch) to prevent flies and other insects from entering cafeteria
